CORRIGENDUM OF "SPECIAL LITHUANIAN POSTAGE STAMP CATALOGUE 1918-2012"

Ruošiant ir spausdinant katalogą klaidų išvengti nepavyko. Žemiau pateikti pastebėti netikslumai ir teksto surinkimo klaidos. Pirmame stulpelyje parodyta vieta - skaičius reiškia puslapio numerį, raidės – stulpelių aprašymą: L – kairysis, R – dešinysis, T – viršuje, M – viduryje, B – stulpelio apačioje.

Probably it was impossible to avoid errors or misprinting. Some of them were found by me, some kindly sent by philatelists from different towns and countries. I am very grateful to them for this support. Description of text line location means: number – page, letters – column description: L – left, R – right, T – top, M – middle, B – bottom of the column.
